Press Release

The Air Cadet League of Canada Welcomes Announcement of May 1st from the Minister of Defence about the Assured Future of the Air Cadet Flying Program

OTTAWA, ON - The Air Cadet League of Canada welcomes the announcement of May 1st from the Minister of Defence about the assured future of the Air Cadet Flying Program.

Contingency planning had been conducted regarding possible changes to the flying program. The League is supportive of evaluating a new, innovative and motivating approach to delivering flying experiences. The Air Cadet League of Canada recognizes this time of budget difficulties as an incentive for enhancing the delivery of flying activities at reduced costs to a greater number of cadets.

The League remains committed to being a supportive and effective partner with the Canadian Forces. We work together to deliver not just the flying experience to Cadets but also to expand their awareness and interest in Aviation and Aerospace. Training and development of important life skills such as, Leadership and Community Involvement are also provided as part of this excellent program for Youth available in hundreds of communities throughout Canada.
